

Tips to Sell VoIP

Support

You and your customers can call or email our support team anytime for questions, troubleshooting, enabling features, changes or ideas you want to brainstorm. We never charge for a conversation.

Features

We keep it simple with all features included at a flat rate price. Offer your customers efficient features: voicemail to email, auto attendant, call routing, automatic office hours, call recording, multi-location, on-hold music, and more!

Cost Savings

- Less expensive than comparable VoIP providers or Landline offerings
- No surprise fees or surcharges
- All local and long-distance calls included

Functionality

- Enterprise-class Business Phone Features
- Accessible, easy tools and reporting
- Advanced features for flexible business

Tech Support

- Empathetic and friendly support team
- Assistance that is approachable, customize-able and solution-driven

Reliability

- Engineered to reduce outages and interruptions
- Quality voice with no white-noise or crackling
- Nationwide infrastructure, geographically diverse

Easy Pricing

- No tiered pricing, all features included
- No "upcharges" for service features
- No setup fees or installation charges

No Contracts

- No long-term obligations
- We work to earn your business everyday
