

softphone features

Audio Calls using your Business Extension

Make and receive calls using your mobile device, while protecting your personal phone number, using mobile data or WiFi connection.

Do-Not-Disturb (DND)

Silence all inbound business calls when you don't want to be disturbed using the scheduling feature for automatic behavior.

Voicemail

Receive business voicemail directly to the app, allowing users to quickly listen to calls they have missed.

QuickDial with BLF

Create a list of favorite contacts for easy access with BLF's (Busy Lamp Field) that also show the current status of your colleagues.

Powerful Call Control

Users can blind & Warm transfer calls, record and have 3-way conversations.

no contracts!
